INTRODUCTION

On the 74 rolls of this microfilm publication are reproduced the compiled records that give histories of Confederate military units. The compiled records consist of jacket-envelopes bearing the names of the units and titled "Captions and Record of Events." These jacket-envelopes typically contain (1) caption cards showing the exact captions of the muster rolls as copied and the certificate of the mustering officer verifying the accuracy of the rolls; and (2) record-of-events cards containing information relating to the stations, movements or activities of each unit or a part of it, and sometimes to its organization or composition, strength and losses, and disbandment. The amount of information contained on a card varies. Some include only date and name of station of the unit. Others give detailed accounts of the unit's operations and activities. These compiled records are part of the War Department Collection of Confederate Records, Record Group 109.

Because some records of the Confederate Army were lost or destroyed during the war and at its close, the compiled military histories of most units are incomplete. There are no record-of-events cards for a small number of State units that were mustered into Confederate service and for militia units that were never mustered into service.

The compilation of records showing service of Confederate military units was undertaken simultaneously with compilation of service records of Confederate soldiers. The work was begun in 1903 under the direction of Brig. Gen. Fred C. Ainsworth, head of the Record and Pension Office in the War Department. Abstracts were made from documents in the War Department's collection of Confederate records and from documents borrowed mostly from Southern States by the War Department in an effort to obtain as complete military histories of units as possible. The original muster rolls and returns were the principal sources of information abstracted on the caption cards and lists of officers envelopes, but rosters, payrolls, hospital registers, casualty lists, Union prison registers, casualty lists, Union prison registers and rolls, parole rolls, and inspection reports were also examined for this purpose. Abstracts were verified by separate comparison, and every precaution was taken to ensure their accuracy.

Some of the jacket-envelopes, particularly those titled "Captions," "Rolls," "Instructions," or "Information," do not contain card abstracts, but do contain information cards that serve as cross-references to records filed with other units. On the front of each jacket-envelope is a series of numbers that corresponds to the number on the back of each card in the jacket. The reverse side, which contains a number and a date stamp, was

NATIONAL ARCHIVES MICROFILM PUBLICATIONS

not filmed unless it contained additional information. The numbers and dates were stamped on the cards for control purposes at the time the compiled records were prepared. Later, notations were made on some jackets to indicate that clothing rolls of the units were extant. Card abstracts were prepared from information on these rolls and filed with compiled records of individual soldiers but not in the jacket-envelopes reproduced on this microfilm publication.

Preceding the jacket-envelopes of most units are empty envelopes on which are listed the names of officers of the unit or, occasionally, only the name of the commanding officer. The letter "C" and the numbers "1" and "2," which follow names of officers, indicate the grades of captain, first lieutenant, and second lieutenant, respectively. The lists often include dates on which units were called into service and mustered out; dates of deaths, promotions, resignations, or retirements of officers; and information relating to consolidations, transfers, disbandments, or other changes in the organization of units. A stamp reading "All rolls filed herewith" appears on some of the lists, but no rolls are now filed with the lists. Similarly, the notation "For references see inside," which appears on some lists, should be disregarded as there are now no reference sheets in the envelopes.

Lists of officers were prepared for many State militia units that were not mustered into service and for other organizations for which no rolls were found. These lists are filed under "Miscellaneous" and appear at the end of records of State units and at the end of records of units raised directly by the Confederacy. With a few exceptions no lists were prepared for units from North Carolina.

Most of the compiled records reproduced in this microfilm publication are arranged alphabetically by State, thereunder by type of unit (cavalry, artillery, and infantry), followed by reserve, militia, local defense, conscript, prison guard, instruction, or other organizations. The table of contents was prepared from caption cards; the information in parentheses or brackets consists of other names by which units were known and related information. The arrangement of compiled records for units raised directly or otherwise formed by the Confederate government is similar except that the latter units are not broken down by State.

The National Archives has compiled records of Confederate soldiers who served in units whose histories are reproduced in this microfilm publication. There are also card indexes to help locate the compiled service records of Confederate soldiers. All the records and the related indexes have been microfilmed.

The archivist responsible for the preparation of this microfilm publication is Geraldine N. Phillips.

on the advance was from

from Columbia to ^{my} Subaki

extreme coldness of the

on account of being badly

their tracks were left blood.
Notwithstanding I am able
to say that the health

RECORD OF EVENTS.

My company has been drilled regularly in squad and company drill, and are at present in a good state of discipline. The company was with the Sixth La. Reg. when it retreated from Fairfax Station on the 17th of July, which was done in good order. On the morning of the 17th Lt. J. D. McCauley was posted on the outer picket and was forced to return with the entire guard as he did not deem it prudent to remain against a large force which were rapidly advancing. Leaving the station all the camp baggage was placed into the wagons and by the accidents occurring to them I lost some part of my baggage belonging to the company. In the night of the 17th we camped at Union Mills, Va. where we remained until sunrise the next morning, when we were ordered to

march down the railroad to Camp
 Walker where the 16th Mass. had been
 encamped. Here we halted for a few
 hours when the firing of cannon and
 musketry announced the beginning of
 the fight of the 3rd July. About 10 o'clock
 I was ordered with my company up Bull
 Run to guard a ford where it was
 thought they might attempt to cross. I
 held myself in readiness during the entire
 day, and at dark I received orders to re-
 turn to my camp with my company, only
 leaving a lieutenant and two men to keep guard.
 The next morning he joined the company
 and I passed it to join the other portions
 of the Regiment which were camped along
 the Railroad. Here we remained until
 the 2nd of July when we were ordered to
 march but no one could say where. How-
 ever, after making many short marches we were
 ordered to the battlefield where the men
 were willing to receive and gave many a
 hearty cheer. When we arrived the day
 had been won, and after a short rest we
 were ordered to move back to camp on the
 railroad. This order being executed at about
 9 o'clock at night we reached a place near our
 former camp where we halted and slept until
 next morning. That night it began raining
 and it continued during the night and the
 next day. However we were ordered out well and then
 we went to Manassas for our loads which I found
 a few of. We moved from this place to Union
 Church on the 8th of July. Here we remained for
 three days when we moved to our position on
 the side of Bull Run.

RECORD OF EVENTS.

My company has been daily drilling from the 1st July last until the present, except when unavoidably prevented. It has furnished on all occasions its requested details for guard and picket duty and participated to a great extent in the heavy work required in building breast works, and felling timber while engaged at Fairfax Station. Up to the 24th July it was in command of Capt. *Thos. P. Baker* since promoted Major in the 2^d *La* Reg't who organized the company under his command. In the morning of the 17th July we were ordered on the road leading from Fairfax to Manassas, as skirmishes here we remained until the main body of the Brigade under Gen. *Lee* commenced its retreat to Bull Run. There we were then ordered to the front of the column. (over)

our arrival at Union Mills about 4 PM the greater portion of the company was detached on duty in three separate bodies, one under 1st Lt. Battish, the other under 2d Lt. Albert Alcher, and the last under Sargent Francis. On the morning of the 15th we were ordered to guard the ford at Union Mills. The 2nd Co. Regiment upon orders of Gen. Swell marched nearly to Hartsville and then ordered to counter-march, these subjects due to the mortification and sadness of not participating in the memorable battle. The details of this march are fully described in the reports of the engagement. Since that time the company has departed itself creditably.

~~No other worthy note has occurred during the last two months. Constant practice has inspired the men in the drill and we flatter ourselves that much improvement has been made.~~

In Wednesday 29th Apr. 63 the Regt. was engaged with the enemy at Rattle House & debanded a crossing under a heavy fire. The company deployed as skirmishers resisted the advance of the enemy until their last round of ammunition was fired, then retired before overwhelming numbers after suffering severe loss.

Regt. and is designated as Co. I, and has been in every engagement in which that Regt. has taken part, numbering in all some 35 General Engagements and innumerable skirmishes not under the list of Engagements there not being sufficient space allowed to insert them.

In 1862 it went through the memorable campaign of "Stonewall" Jackson in the Valley of the Shenandoah. Attached to the Army of Northern Virginia it followed in all under Gen. Lee. It followed in every movement and rendered material service in every battle in which that glorious Army was engaged including the Wilderness and Pennsylvania campaigns of 1863. Specially under "Bird" Debat's Regt. & participated in every battle and march in his Valley campaign from Richmond to Washington. The company at its organization numbered over 90 Rank & file, it has been reduced by the fortunes of war to a mere skeleton of its former numerical strength there being at this date one officer and 3 men present.

This record has been made according to memory there being but a few others were present the books and papers having all been lost. Errors, omissions and discrepancies may have crept in which I will at any time be happy to correct.

I certify that the above record is correct to the best of my knowledge.
